

Against the Horde is a cooperative turn based strategy game of deck management and adventure set in a world of a mythological Greek apocalypse. As a hero chosen by the gods to fight the armies of the mad titan Cronus you will customize a hero and select equipment, skills, and abilities for each round. Defend the land and complete quests to improve your character until you are strong enough to launch a final attack to close the portals pouring hordes of foul creatures into your lands. If you close all four portals on the map, you will stop Cronus' invasion and win the game!

The fair lands of your people have been overrun by abominations from Tartarus sent to the mortal realms by the mad titan Cronus through magic portals. Save mankind by defending your base, gathering resources, leveling up skills, searching out the portals, and finally closing them in epic battle!

- Multiplayer 1-4 cooperatively
- Boardgame-inspired gameplay systems
- Unique Deck building mechanic
- Each ability has passive and active bonuses making decisions interesting
- Manage personal and team resources, such as Health, Wit, Food, Wood and Ore
- Unleash devastating combinations between your decks of skills to win the day!
